E-mail: SherwoodFCC@aol.com. Bring your gently used/new shoes and leave in a box in the Narthex. We will be collecting these shoes for the Ozark Water Project through the month of January. Here's how it works: Ozark Water Project turns these shoes into clean drinking water. Your donations will be exported to distributors in South America, Haiti and Kenya where they will be resold for pennies on the dollar. The funds generated by the shoe resale help to build the local economy as well as protect the owner's feet. These funds allow for the purchase of well-digging rigs, water purification systems, and other supplies to bring clean, fresh water to those in need.

Your Food Pantry fed 115 families in December totaling 472 people. Wow!! This has been a year of true blessings; not only for the patrons of our pantry but for the volunteers as well! We continue to receive generous donations that help keep our doors open to those in need.

From Regional Minister Barbara Jones: Barb@grrdisciples.Org:

The New Year has started out busy as expected! We lost two faithful leaders on New Years Day as you read earlier. But somehow, the gathering of the larger Church family was a celebration of one who shared in so many lives. On the same day as Dr. Farmer's visitation, Sara Rozzell, and friends hosted a shower for her brother Matt and wife Julie's soon to be born son. Earlier that day I was at FCC Hot Springs and Cindy Woolery announced that her mother was cancer free after a battle with PANCREATIC CANCER! What a day! Have you ever known anyone to be healed like that? And isn't it typical that within a church family a dear one ends a full life as a new one prepares to enter life on earth?

We just had a little excitement and I learned a new term you might want to know: Apple Pickers. Someone comes up to you and asks to use your phone to call home (etc) and runs

off with it. We have regular “guys” (all male to date) who regularly try doorknobs of our cars here at the office and the adjacent church as well as at home in North Little Rock. Melanie had her computer stolen at the office, Tina had her phone taken, I’ve lost numerous electronics at home that I left in the car (gps, phone, etc) and forgot to lock the car. Tina saw the guy who took her phone trying the locks on our doors today and called 911 while I got my phone (camera) and Wendy got her stuff. We followed him by car to get his picture track him until the police responded. He kept his head away from us and dove down into the ditch as soon as he recognized us. The police showed Tina and I several pictures of their frequent Apple Pickers on their computer, but they guy they think it is didn’t have a photo.

Tomorrow I’ll be driving to McComb to meet with their board Sunday Morning and be with them through Worship. Originally I was going to work my way back and make some visits on the way, but the ministers meeting for Central Arkansas got rescheduled due to Dr. Farmer’s funeral last Monday so I’ll be coming right back to Little Rock.

Do you hear a theme of movement and things happening that change schedules and occur “the way from... to...”? That is where Jesus taught his disciples about life. That’s where healings occur. That’s where parables were told. That’s where the intimate moments of life with Jesus occur and decisions have to be made. So 2015 has begun and I’m “On the road again...”

Week of Compassion. <http://www.weekofcompassion.org/>. Week of Compassion is the relief, refugee and development mission fund of the Christian Church (DOC) in the United States and Canada. We seek to equip and empower disciples to alleviate the suffering of others through disaster response, humanitarian aid, sustainable development and the promotion of mission opportunities.

HISTORICAL CHANGE: WATER IN KENYA

In her arid region in Kenya, Matee Kakoo and women in her community had to walk over six miles in order to collect water, wait in line for four to five hours to draw the water and then start the journey home. Their children could not attend school. Often, families went hungry as there was no water for cooking, watering the crops... the most vulnerable suffered the most. Together, Week of Compassion's partner CWS and the people of Mbangulo built a sand dam and shallow well. The community worked hard to collect local materials. And, they banded together and build the sand dam within a month. One month and their lives were changed forever.

Children are now attending school regularly and do not even have to carry water with them to school. They are drinking safe, clean water from the well dug by their classes. There is now water for vegetables and fruit trees. Families' nutrition is improving and the younger children are thriving. This is truly your Compassion put into Action.

"To speak the truth, this project has changed this community. On behalf of the people of Mbangulo, we thank God for the historical change you have brought this community. It will be remembered for generations to come. Thank you."
