

Coda ThermaPro Thermal Laminates

ThermaPro Glossy (Heat Activated)

Coda's Heat Activated ThermaPro Laminates are manufactured with the highest graphics arts grade films. They are all made with high clarity films to enhance your images as well as provide them with complete protection from environmental moisture and uv light. They are engineered to activate at 185 degrees F. This low melt point is compatible with virtually all of today's demanding digital media.

All Thermal rolls are provided on 3" ID cores. We can provide these films in widths and lengths not listed on this these pages. In addition, we can slit these rolls to custom widths. There is no charge on the first slit in a roll. Each additional slit is \$3.00.
