Transparency Adhesive

Transparency Adhesive is an ultra smooth super clear double release adhesive designed for use when the adhesive will be in front of the image, such as back mounting to plexi. It has two extremely smooth plastic release liners.

Cold-Mount® Double Release Adhesive

Double Release Adhesive

Double Release Adhesive is a very thin clear plastic coated on both faces with a smooth clear permanent pH neutral adhesive. Both sides are protected with a heavy poly coated paper release liner. This is an excellent choice for general mounting tasks. It is well adapted to center-mounting prints and graphics on larger matte boards.
