EDUCATION

B.S., Nuclear Engineering, North Carolina State University, 2011

EXPERIENCE

Since receiving his undergraduate degree in nuclear engineering in 2012, Mr. Sandonato has worked in the electric utility industry in the areas of energy policy, utility regulation, renewable resource evaluation, integrated resource planning, electrification, and energy efficiency program design and implementation. Mr. Sandonato started his career at ICF and worked on behalf of utilities administering both residential and commercial energy efficiency programs satisfying multiple state legislative and regulatory requirements. After that, he worked for approximately 7 years at the South Carolina Office of Regulatory Staff, starting as a Regulatory Analyst participating in water, wastewater, natural gas and electric rate proceedings and annual filings. Ultimately, He served as Deputy Director for Energy Planning and Emerging Technology, where he prepared testimony and functioned as an expert witness before the Public Service Commission of SC on matters such as annual fuel recovery, base rate cases, and integrated resource planning. Mr. Sandonato was on the Board of the Low-Level Radioactive Waste Forum and assisted the Atlantic Compact Commission ensuring compliance with federal and state laws. Mr. Sandonato spent almost two years at Laurence Berkeley National Lab where he conducted research and presented his findings on state energy efficiency policy, electrification, distribution system planning and cost recovery. During his time at the Lab, he also helped administer the National Community Solar Partnership, which offered technical assistance and education to solar developers, state local and tribal government entities, NGOs, and community-based organizations. Mr. Sandonato began work as an Outside Consultant for J. Kennedy and Associates in February 2025 and provides analytical support to clients in the areas of utility resource planning, energy efficiency, electrification, cost recovery and grid modernization.
